

The Bright Side of Mathematics

The following pages cover the whole How to Learn Mathematics course of the Bright Side of Mathematics. Please note that the creator lives from generous supporters and would be very happy about a donation. See more here: <https://tbsom.de/support>

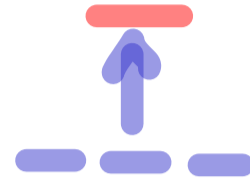

Have fun learning mathematics!

How not to learn mathematics

① Not having prerequisites

$$\frac{15}{18} \quad \dots \quad \frac{5}{6}$$

② No practise

③ No repetition

④ No talking about it

⑤ Learning isolated results
